purchase, Mr. Mellon said, but told him he must not expect relief from him in case he should violate the law.

CABINET DISCUSSES MELLON
BENEFIT AT SESSION TODAY
While the hearing was in progress President Wilson and the cabinet were in conference in the regular semi-weekly session. It was reported from several sources that Attorney-General McHenry had brought up before the cabinet the subject of the New Haven inquiry and the decision of the interstate commerce commission to proceed, despite his letter to the commission stating that testimony taken now might grant immunity in any future action by the government.

**Forest Fires Are
Cause of Big
Losses**

Wisconsin Lumber Mills Burned Today with Loss of Half Million. Whole Town in Minnesota in Flames.

[By Leased Wire to Evening Herald.]

Iron River, Wis., May 19.—The extensive lumber yards and mills near Iron River, Wis., have been destroyed at a loss of close to half a million dollars. Bridges on the South Shore railroad were destroyed today by forest fires. Only change in the wind or rain can prevent damage amounting to millions.

Whole Town of Cloquet at Fire.
Cloquet, Minn., May 19.—Fire starting this afternoon during the high wind had burned up five dwellings in the residence section at 7 o'clock. The whole population is out fighting the fire.

TODAY IN CONGRESS.

The Senate.
Met at noon.
Debate resumed on Panama
tolls exemption bill.

The House.
Met at noon.
Rules committee agreed on total of 22 hours general debate on the anti-trust program with night sessions and the meeting hour advanced to 31 a.m.

Debate begun on anti-trust program.

Education committee continued hearing on project for national censorship of moving picture films.

Judiciary committee received announcement that Chairman Clifton would retire this week to become federal judge in Alabama. Representative Webb of North Carolina to head the committee.

Too Much for Him.
A colored porter for a local drug store had to go to another pharmacy to get a new cigarette, and when he came home unsmoked, and asked if he could have one, then asked, "And that any other name for dad?"

**E. L. WASHBURN
COMPANY****Says Democrats
Will Favor
Subsidy**

New Hampshire Standpat Senator Thinks Party will Change Attitude. Burton of Ohio Defends Exemption Repeal.

[By Leased Wire to Evening Herald.] Washington, May 19.—Predicting that the day would come when the Democratic party would abandon its opposition to ship subsidy just as it had changed its attitude on slavery, the civil war, the gold standard and free trade, Senator Gallinger of New Hampshire today defended toll exemption for American coastwise vessels passing through the Panama canal.

He said that the \$25,000,000 worth of church property in Washington exempted from taxation was as much a liability as the tolls exemption. To be consistent, he said, the Democratic party should erect a toll gate at Cape Henry and off Sandy Hook.

"And I might say, what about the subsidy in the naval appropriation bill, which grants free passage to vessels through the Panama canal en route to or returning from the Pan-Pacific International exposition?" said the senator.

Senator Gallinger insisted that a weak retreat, such as proposed from the nation's attitude on tolls would simply be an incentive to Japan to renew with fresh vigor its claims in California and to other nations to resurrect old grievances.

He said the tolls question was not attributable because of the interest of third parties.

Senator Burton of Ohio, declared the diplomatic policy of the United States in recent times in favor of equality for all nations positively forbade the discrimination in favor of American vessels by tolls exemption of the Panama canal.

The senator said the United States had stood for the open door policy as distinguished from discriminations in China and had insisted on artificial waterways along the Canadian border being used on equal terms. He said it was too late now for the United States to change its policy for its own benefit.

**Archbishop Mora
Is Driven Out
by Huerta**

Suggestion that Dictator Resign is Followed by Order Expelling Churchman From City Under Threat.

[By Leased Wire to Evening Herald.] Vera Cruz, May 19.—Archbishop Mora y del Rio was driven out of Mexico City by Provisional President Huerta, according to information reaching here today. The archbishop, the story says, sought an interview with General Huerta, which was at first refused but later accorded on representation that the churchman had a communication from the pope.

The communication, it is stated, proved to be a suggestion that General Huerta resign. The president appeared to take this advice dispassionately, making no reply. On the following day, however, a messenger came to the archbishop with a warning from Huerta that he would do well to leave the country.

If Sweden joins such an alliance it will be because of the so-called Russian peril. On most questions since the dissolution of the union with Norway, Sweden has not been very cordial terms with the other Scandinavian countries and it will take some great common danger to bring her into closer relations with immediate neighbors.

The feeling that such an alliance will come is very strong in Norway, one of its strongest proponents is the Arctic explorer, Dr. Fridtjof Nansen, who believes that the understanding will come as soon as the necessity for it grows a little stronger. With Norway and Sweden seeking such an alliance it is certain that Denmark would make no objection to joining.

The study of legal education has been begun by a new board monopoly to the bar examinations of every state, a special study of legal teaching by Professor Josef Redlich, who came from Vienna for the purpose, and a personal examination of each of the 160 law schools in the country.

Plans for the study of engineering education are now being completed. The earlier educational work of the foundation is continued by commendation of the present tendency of college entrance requirements, low or high elevation and flexibility. The need of further improvement is shown by the fact that only 50 per cent of the students now in our colleges are high school graduates. The decrease in the number of medical schools in the country from 187 in 1910 to 172 in 1912, as the rapid improvement of the better schools are committed in with appreciation. A general study of the problems of the state regulation of higher education is illustrated by a detailed account of the recent crisis in educational affairs in Iowa.

The report further presents a study of the financial status of college teachers as compared with the situation presented in a similar study published five years ago. The ordinary salary of a full professor in the institutions associated with the foundation is now \$2,650. During the last five years the salaries of instructors have risen by about \$30; those of junior professors show a gain of from \$125 to \$225; those of full professors show an increase from \$125 to \$250.

The report concludes with a frank criticism of contemporary college catalogues.

Mr. and Mrs. T. F. Godding, of 614 North Eleventh street, are the parents of a girl born last night.

THREE MILLION FLOODS AGAIN TIE UP RAILROADS IN NEW MEXICO

Annual Report Shows Use Made of Carnegie Foundation During Eight Years of Its Operation.

[By Leased Wire to Evening Herald.] Dalhart, Tex., May 19.—Railroad traffic in the Texas Panhandle, southeastern Colorado and northeastern New Mexico was nearly at a standstill today, due to floods. Within the last two weeks ten inches of rain has fallen in this section, more than two inches last night, adding to floods already caused by previous storms.

POSSIBILITY OF A DEFENSIVE ALLIANCE

Norway, Sweden and Denmark Engaged in Lively Diplomatic Exchange Promising Important Results.

Copenhagen, May 19.—The possibility of a defensive alliance between Norway, Sweden and Denmark is occupying the serious attention of statesmen in all three of these Scandinavian countries.

Up to a few months ago such a combination was considered out of the question because of the friction between Sweden and Norway, whose union was dissolved in 1805.

If Sweden joins such an alliance it will be because of the so-called Russian peril. On most questions since the dissolution of the union with Norway, Sweden has not been very cordial terms with the other Scandinavian countries and it will take some great common danger to bring her into closer relations with immediate neighbors.

The feeling that such an alliance will come is very strong in Norway, one of its strongest proponents is the Arctic explorer, Dr. Fridtjof Nansen, who believes that the understanding will come as soon as the necessity for it grows a little stronger. With Norway and Sweden seeking such an alliance it is certain that Denmark would make no objection to joining.

Every ride on a street car in Copenhagen is now accompanied by an irresistible temptation to participate in a municipal lottery. The litter of used tickets which passengers throw into the streets was such a serious annoyance that the city decided to make the tickets valuable as lottery coupons.

Automatic machines have been placed at the various trolley stations and when the passenger steps from his car he may convert his used ticket into a lottery coupon by inserting an ore value the equivalent of half a cent.

The machine stamps the ticket with its number in the drawing. Every month goods of local manufacture are given as premiums in this lottery.

Danmarks ideal methods of agriculture will be exhibited in Russia by motion pictures. A Russian court official, Leonidas V. Plankhoff, will tour the agricultural districts of Russia, showing the pictures and emphasizing the methods which have made Danish farming the standard of Europe.

The report further presents a study of the financial status of college teachers as compared with the situation presented in a similar study published five years ago. The ordinary salary of a full professor in the institutions associated with the foundation is now \$2,650. During the last five years the salaries of instructors have risen by about \$30; those of junior professors show a gain of from \$125 to \$225; those of full professors show an increase from \$125 to \$250.

The report concludes with a frank criticism of contemporary college catalogues.

Mr. Murray, irritable from long confinement to a sick bed, cracked up his ears and listened.

"That's all that piano-hangin' in th' parlor!" he then demanded, glaring at his wife.

"We our daughter Mary takin' her first steps! Phat's she doin' walking on the keyboard?"

Sounded Like It.

Mr. Murray, irritable from long confinement to a sick bed, cracked up his ears and listened.

"We our daughter Mary takin' her first steps! Phat's she doin' walking on the keyboard?"

ROOSEVELT BACK WITH LECTURE READY

Colonel Lands in New York Today With Plans Complete to Tell Geographical Society About His River.

HEALTH IS REPORTED GREATLY IMPROVED

Mrs. Roosevelt Requests Villagers at Oyster Bay to Postpone Welcoming Celebration Until Tomorrow.

[By Leased Wire to Evening Herald.] New York, May 19.—The steamship Alden, decorated from stem to stern, and bringing Theodore Roosevelt from Brazil reached Quarantine at 2:45 o'clock this afternoon.

Colonel Lands in New York Today With Plans Complete to Tell Geographical Society About His River.

HEALTH IS REPORTED GREATLY IMPROVED

Mrs. Roosevelt Requests Villagers at Oyster Bay to Postpone Welcoming Celebration Until Tomorrow.

[By Leased Wire to Evening Herald.] New York, May 19.—The steamship Alden, decorated from stem to stern, and bringing Theodore Roosevelt from Brazil reached Quarantine at 2:45 o'clock this afternoon.

Colonel Lands in New York Today With Plans Complete to Tell Geographical Society About His River.

Because of Mr. Roosevelt's illness resulting from the privations he underwent in the Brazilian wilds, there was no ceremony at his home coming. The Alden reached Sandy Hook shortly after 2 o'clock and took on a pilot. Only one message was received from the Alden by wireless today. This said that Mr. Roosevelt's health was greatly improved and that he hoped to address the National Geographical Society in Washington next week. This would seem to indicate that he has completely recovered.

Those who went down the day to meet the colonel were Mrs. Roosevelt, Mr. and Mrs. Theodore Roosevelt, Jr., Dr. and Mrs. Richard Derby, his son-in-law and daughter, and Emilia Roosevelt, a cousin. If the colonel is well enough there will be a family dinner at Sagamore Hill this evening.

New York, May 19.—The steamship Alden, bearing Theodore Roosevelt from Brazil, came into lower New York harbor this afternoon after a voyage lasting twelve days.

A wireless message during the forenoon stated that Colonel Roosevelt's health was greatly improved and that within a short time he would deliver a lecture on his explorations in Brazil before the American Geographical Society, at Washington.

The Alden, it was reckoned, would reach Quarantine about 4 p. m. There was a tug waiting to take the colonel direct to Oyster Bay.

VILLAGERS POSTPONE PLAN FOR BIG CELEBRATION

Oyster Bay, N. Y., May 19.—At the request of Mrs. Roosevelt, the plans of the villagers of Oyster Bay to welcome their townsmen, Theodore Roosevelt have been postponed for at least twenty-four hours. There was to have been a parade tonight, but the decision to bring the colonel by yacht put these plans away.

Now it is planned to have Mr. Roosevelt dine quietly with his family at Sagamore Hill tonight, if he feels well enough and tomorrow go down to the village. Then the villagers hope he will make a brief address.

Graduation Gifts

See our special line of Jewelry marked especially low for this occasion, also Gloves, Hosiery, Neckwear, Fans, Art Goods, Boudoir, Cap, etc. We are sure to please you, in any article you desire for a Graduation gift as to Price and Quality.
